

# Mark Five: Live!

## Lamb of God

### WILLIE ADLER:

“ Since I started using Mesa Boogie I’ve never looked back. Every Mesa amp I have used has surpassed anything I ever used in the past. This brings me to the ultimate in amps...the Mark V. It offers the versatility that Mesa is known for, but is also one of the most user friendly amps out there. It’s the amp I’ve been waiting for my entire career. It has the brutal sound that Lamb of God is known for plus a myriad of possibilities that will accommodate any taste. The ultimate in amp and attitude!”

### MARK MORTON:

“ The Mesa/Boogie Mark series amps have been the foundation of my sound for over 15 years. The Mark V is the next generation, pushing the boundaries of tone with an earthquake low end, highs that shimmer and chime, and a well rounded, powerful mid-range that offers all the gain you could ever want, while still allowing your guitar’s natural characteristics to shine through. The Mark V is the new benchmark for total tone control and versatility.”

Check out the latest highly acclaimed CD from Lamb of God titled "Wrath". See & hear the Mark Five LIVE on tour:
